

SEASON 2011/2012

**NOW** WE CONQUER  
THE WORLD...

# SUPREME

Revolutionary new stick series created by the best parts of floorball history.

We created SUPREME for one reason only. To launch the best floorball stick ever made on the market. By setting this goal we also decided that SUPREME needed the best functionality, design and innovation. The result is a new stick series that is just the way we wanted it. Jam-packed with goodies and ready to rock!

Our newly released blade SUPREME is designed to be a model that all players will enjoy playing with. By setting these demands, we also needed to increase our efforts and make something special. When we created SUPREME we had the best parts from the best blades put together and the result was true functionality. After months of testing, trying and redesigning, the SUPREME blade was born.

When the functionality of the blade was secured, we dug into the design of the stick. We collected input from small parts of Italian cars and brought them into SUPREME. The carbon fiber pattern on our shafts is taken from the dashboard of a sports car. The rings and stitching on our gripband are taken from the interior of another sports car. Do these guys know how to design? The answer is yes...

With functionality, design and attitude we feel comfortable calling this revolutionary new stick series SUPREME. Why? Because it is...

SUPREME

## MASTERPIECE

**The most eye-catching stick series ever made.  
Impossible to miss...**

ZONE is the brand for the player who doesn't want to look like any other player. Our player doesn't tremble during the last minutes, he doesn't cry when he loses and he won't play the way his trainer says. Our players are unique, trendy and they stand out from the crowd.

To meet the demands from our customers we needed more attitude and more eye-catching characteristics in our collection. We sat down a long time and tried to figure out the most trendy, edgy and popular characteristics of the floorball stick for tomorrow. We found a trend that we really believe in - the **neon colours**. Tomorrow you'll find these colours all around you. On shoes, clothes, computers and floorball sticks, they will be everywhere. With our Neon Line we've created the most eye-catching sticks ever made. Just the way our players like them.

# NEON LINE

**MASTERPIECE**

Picasso, Monet, van Gogh, Rembrandt, the list of names of famous artists is long. They all knew how to create a masterpiece, and we decided that we also wanted to create one ourselves. With our Masterpiece series we aimed to develop a stick series that is as close to perfection as you can possibly come. We started out by creating a blade that is firm but still light, and we gave the face of the blade a perfect concavity that allows you to control your passes, and finally we designed

the blade to have a modern and innovative look. Then we turned our focus towards the shaft. The design was made like something we had never done before, using fading colours along the entire shaft and grip. All in all, our belief is that we have come very close to what we set out to achieve with this series, and the reception among the players has been excellent. So go ahead and try it; shoot, pass, make your moves and enjoy your Masterpiece. You will see that we are right!

### Air 2 Ultralight Strongflex

Shaft length: 91, 95, 102 cm  
Total stick length: 101, 105, 112 cm

# Customize your stick!

**Choose between 5 shafts, 5 blades and a classic ZONE design.**

## CENTRAL LINE

There are always people searching for the trendiest things, the best technologies or the newest blades. But not everybody does that. We have spoken with customers, players and people within the floorball business and figured out that what we need is a basic line to fill the demands of the market and to satisfy our customers. A line where several of our shaft technologies are represented, where the blades we've created throughout the years will be available and where the design of the stick will last for a

long time. The Central Line is for those who search for a great stick to a great price, made of exactly the components they like. Whether you like the GREED, the 369 or the ENVY, you will be in total control of making your own stick. We have created a system where you can choose the shaft from our newly designed Central Line and put your favorite blade on it. Go to the next page to see the Central shafts and the Central blades and make your own personal stick!

Blade material: HD PE (low friction)  
Grip: Opti Grip white  
Weight: 255 g (95 cm)  
Art. No: 36006

## 360°

Here's one of our most versatile sticks. How we dare say so? Well, the blade is rather like the Rock blade, except for the deep curve at the tip, making it easier to keep hold of the ball. The shaft is available in both composite and carbon, making it the perfect stick series for many different types of players.

## SPIRIT RIP 41

A well-balanced and light floorball stick in silver and black design with our popular ZIP-blade mounted on it. An affordable stick that is perfect for schools, universities or when playing with friends.

RIP is a favourably priced stick for everyone looking for a real floorball stick. Nothing is missing here. A good starter stick with excellent properties for passing and shooting alike.

**!** The colour of the blade may vary depending on availability in our stock.

Kids wanna have fun!

When we set out to make a series of children's sticks, we didn't want to do what everyone else did - shorten an adult stick shaft and smack a cartoon figure on it. No way. We started from scratch. We engineered a brandnew stick that took into account children's height, balance, muscle strength and coordination. The result, a superb floorball stick that matches the size and capabilities of children.

The Piraya series' shaft is available in lengths starting at 55 cm. And the blade is big enough to provide a generous contact surface and ball control but not so big that it becomes unmanageable. Balance between shaft and blade is the key. Piraya has it. The perfect stick for anyone who wants to kick-start a floorball career while boasting their baby teeth.

## PIRAYA JUNIOR

### Fuji Softflex police blue

PEOPLE

To be able to create world class products we need to have players who test and evaluate our items. Because of that we try to create a mix of players consisting of the stars of both today and tomorrow, and naturally both men and women. We want to make floorball even more fun!

## SUPREME

SUPREME is designed to be a model that suits all player types. By setting these demands, we also needed to increase our efforts and make something special. When we created SUPREME we took the best parts from the best blades and put them together. The result is true functionality. After months of testing, trying and redesigning, the SUPREME blade was born. This is a blade that is a good complement to the MASTERPIECE blade. A bit stiffer, a bit more concave but with the same playing skills. SUPREME is here to stay!

- MASTERPIECE** Medium Air Soft Feel neon yellow  
Material: PP (low friction). Weight: 71 g. Art. No: 31432

## MASTERPIECE

MASTERPIECE is a blade for the real player. When we made the MASTERPIECE blade we wanted to create a blade that looked innovative and revolutionary compared to other blades, and that is something we managed to do. We also wanted to create a light and well-balanced blade that emphasizes good passing and ball handling, which is something we also did. After one year on the market, we can now see that MASTERPIECE has gained ground. The best of all? It has just started...

#### Goalie Sweater Icon

Exclusive goalie sweater in a spectacular design perfectly matched against the rest of the new ICDN goalie series. The sweater has a modern design that has been optimized for better mobility and protection, and is equally suitable for both match and practice. The front and back are in polyester with padding on the shoulders and on the front of the sleeves. Parts of front, back and sleeves are in light weight mesh for ventilation and improved mobility. Seams that are subject to heavy wear-and-tear have double stitching for added strength. Pre-shaped elbows. Preferably used in combination with Goalie T-shirt Zone Armour ICDN or Goalie T-shirt Zone Armour Battle.

Colours: Black/white.

Material: 100% polyester with Oxford nylon reinforced elbows. Size: 140, 160 cl, XS-XXL. Art. No: 37060

#### Goalie Pants Icon

Exclusive goalie pants in a spectacular design perfectly matched against the rest of the new ICDN goalie series. The pants are equally suitable for both match and practice, and they have a modern design that has been optimized for better mobility and protection.

The materials that are used have been upgraded for improved quality, and all seams have double stitching for added strength. The front of the pants are padded for protection and the right fit. Pre-shaped knees with Oxford nylon reinforcement. High waist with comfortable padding and adjustable Velcro fastening. Wide belt with fast snap-on buckle. Detachable braces and adjustable padded hip protection provide extreme fit. Extra strong leg opening zippers on the back for easy adjustment of shinguards.

Colours: Black/white

Material: 60% polyester, 40% cotton  
Size: 140, 160 cl, XS-XXL. Art. No: 37350

## Goalie

For those who don't shy away from a little attention. "The final outpost", "game hero" or "half the team" – there are numerous clichés about what a goalkeeper is and what he means to the team. But it all points to one thing – the goalie is alone and an extremely important, always exposed, team building element. Sky-high demands, you could say. You need the lungs, thighs and reactions of a tiger. An ability to cope with floorball's extremely high pace and instant play changes. Plus an ability to think tactically. To not just stop balls, but also be fast enough to turn the play with a well-placed throw. That's what it takes to be a good goalie.

Here at Zone, we work hard to design protective gear and clothes that helps a goalie rise to greatness. That provide protection. That are lightweight. And that release body heat so the goalie can concentrate on the ball, the whole game through. And of course, it doesn't hurt if the equipment looks cooler than your opponent's ...

#### Goalie Sweater Battle Cotton

Goalie sweater for match and practice. Colour: Black/white. Material: 100% cotton. Size: 140, 160 cl, XS-XXL. Art. No: 37010, 37014

4

**1 Matchball CR8ER**  
4-pack Art.no: 51070  
8-pack Art.no: 51074  
200 pcs Art.no: 51066

**2 Ball Piraya 2-pack**  
Colours: Neon green/neon orange, cerise/blue,  
black/gold. Art. No: 30014, 30016, 30015

**3 Ball Booster**  
High tech ball with dimpled surface for a steadier  
course and a higher speed. Colours: White, gold.  
Weight: 23 g. Art. No: 51030, 51031, 4-pack 51040

**4 Ball bag Stabil**  
Bag for balls and cones, made in heavy sandwich  
PVC and mesh. Holds approximately 120 balls.  
Colour: Black. Art No: 33015

**5 Ball Classic 200 pcs.**  
Colours: White, green, neon orange, red, blue, yellow.  
Art. No: 51000, 51002, 51003, 51004, 51005, 51006

**6 Ball Classic**  
Colours: White, yellow metallic, blue metallic,  
red metallic, black metallic, neon orange. Weight: 23 g.  
Art. No: 51000, 51006, 51005, 51004, 51007, 51003

4-pack white balls. Art. No: 51020  
4-pack blue, yellow metallic. Art. No: 51021  
4-pack blue, red metallic. Art. No: 51022  
4-pack orange, black metallic. Art. No: 51023  
4-pack mixed colours: white, blue, yellow,  
red metallic. Art. No: 51024

# Balls

# What is GROOVE?

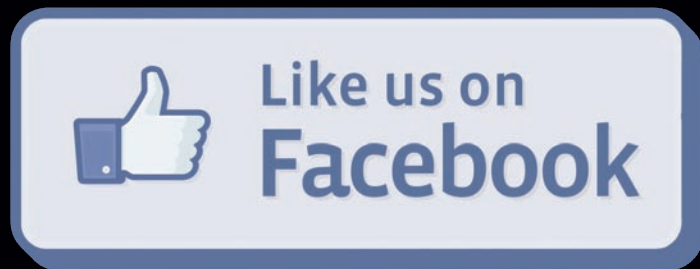

During the last years the development in the field of shafts has been massive. All producers have tried to find the shaft technique that gives the best effect, in other words the fastest and most powerful shot. With the new Zone shaft GROOVE we have found that technique.

We have consulting engineers who have analyzed how the shaft can be made stronger in the shot direction without making the shaft any heavier. The solution has been to shape the shaft as an I-beam and also to add two oval sections at the points where the shaft is at its stiffest, and thereby concentrating the flex point to the spot between those segments. To further increase the power of the shot, the lower part of the shaft has been slightly bent to give an optimal angle when the ball is struck. Zone has used existing shaft techniques, added new innovations, analyzed, tested and created - GROOVE!

- 1 GROOVE**  
The groove in the shaft creates the effect of an I-beam.
- 2 Enhanced oval sections**  
These sections make the shaft stiffer in the shooting direction.
- 3 Optimized flex point**  
The oval sections will concentrate the flexpoint to the round area to create the maximum effect.
- 4 3.2 cm BOW**  
With a BOW at the end of the shaft we have optimized the angle from the shaft towards to the ball.
