# AIR CONCEPT FORCE JR

LIKE MOTHER, LIKE DAUGHTER. LIKE FATHER, LIKE SON.

We always try to design our KIDS sticks to look like senior models, but this year we made it all the way. Both models can be matched with two TOP SELLERS from the SR collection. One model is thinner and taken down to 65 cm, and one is normal with length up to 80 cm. All for that extra player choice.

1

Reinforced heel area with strong vertical bars to create stability and torsional stiffness all along the blade for optimal shot resistance.

2

The t-bars provide a strong vertical firmness to the blade, to be able to keep a lower weight in the top for optimal stick balance.

3

A steady and smooth playing surface with the same small concavity all along the blade provides great ball control and steady passes.

4

The design is inspired from SUPREME, ZUPER and HYPER with a touch of ROCK & GREED. A mix of all greatness created during our years.

## SUBLIMATION – CUSTOMIZED TEAMWEAR MAKE YOUR OWN!

The first step for creating your customized team jersey is to contact us with your ideas. Normally we go through some general ideas, we take a look at your sketches, find the right model and we start to design that unique look for you and your team.

Step two is to offer you and your team a design that you are looking for including various colors, logotypes, numbers and names. With our design team ready daily we can fulfill the most of your wishes in presenting you a sketch quickly by e-mail communication.

When you accept the design proposal we go into production. We have quick and modern factories ready 24/7. The design is burned into the fabric by sublimation technique to create that long lasting design, a soft garment with a high quality finish without any printed transfers on it.

Sublimating jerseys takes some weeks but it's definitely worth the wait. The more prepared you can be with logotypes, names and sketches the quicker the delivery will be. Before delivery we go through piece by piece and then deliver it to your team.
